Courses

2024
Chennai, India

Full Stack developer

Besent Technology

- 1. Frontend (React.js):
 - Learn React basics, components, JSX, and state management (hooks, Redux).
 - Implement routing with React Router and API integration.
 - Build responsive UIs using Material-UI or Bootstrap.
 - Test React apps using Jest and React Testing Library.
- 2. Backend (.NET with ASP.NET Core):
 - Understand C# and .NET fundamentals.
 - Develop RESTful APIs with ASP.NET Core.
 - Work with databases using Entity Framework Core.
 - Implement user authentication and authorization (JWT, OAuth).
 - Build real-time features with SignalR.
- 3. Full Stack Integration:
 - Connect React frontend with .NET backend.
 - Deploy apps using cloud services (Azure, AWS).
 - Optimize app performance and ensure security.
- 4. Course Outcome:
 - Develop end-to-end web applications, from frontend to backend, using industry-standard tools and best practices.
